Family Trust Advisory & Identity Planning

Family trusts and identity planning are core tools for wealth management in high-net-worth families. Their integration enhances asset risk resistance, optimizes tax costs, breaks down cross-border barriers for intergenerational inheritance, and facilitates the flexible flow of global assets — addressing taxation, legal, and geopolitical challenges to ensure the long-term survival of wealth.

About Asia SGE

We specialize in Complex Wealth Structuring, offering tailored trust set up advisory, family office set up onboarding, and discreet nominee services to protect/isolate and manage your global wealth. With dedicated CFO support and asset oversight, ensuring clarity and control.

For International Business Expansion, we provide strategic entry through country mapping, business advisory, and seamless company formation in key jurisdictions. We support your growth with essential banking/payment solutions and local networking.

We also facilitate cross-border relocation and investment visas. Rooted in Hong Kong, we deliver integrated, precise solutions for both your personal legacy and global business ambitions.
